2. Applicants who do not have the 30% deposit readily available will have to save up for a maximum of 12 months or less in their Deposit Savings Pocket until it adds up to 30% total deposit.
3. Applicants with 30% readily available will still save it up in their deposit saving pocket for not more than six (6) months before financing.

Thinking of Buying a Car?

Get up to 70% Car Loan with ValueMet Financing Plan

ValueMet Vehicle Financing Plan is a term deposit savings to vehicle purchasing plan, tailored to help individuals and businesses access up to 70% vehicle financing of the car value on pre-owned vehicles with flexible payment plan and instalments to suit your monthly income.

Why should I save up?

- we're a term Microlender not a bank, we do not have any financial statements or records despite your bank statement thus all applicants should save up:
- to validate the deposit source as per Anti-Money Laundry Act,
- to create a guarantee transactional record / statement between the buyer & the lender,
- we do not do credit check or ITC check, deposit savings saves as a guarantee and commitment to your future instalments.

How much can i be financed with?

- maximum financing :
N\$ 150,000
- minimum financing :
N\$ 50,000

Vehicles that are financed by ValueMet.

- pre-owned vehicles only
- both imports and locals
- 2013 model upwards

How do I payback the loan?

- pay back in instalments
 - over a period of 60 months
- 30% interest
- instalments are debit through the bank

Note:

purchase a car that will be insured
insurance costs are added to your monthly instalments
we do not consolidate loans
